

MORAN WEINISH

Product Designer & UX/UI Designer

ABOUT ME

I'm a Product Designer specializing in UX/UI for B2B and B2C products, blending user research, prototyping, and visual storytelling, turning complexity into clarity.

EXPERIENCE

Comrax – UX & Technology 2023 – Present

UX/UI Designer & Project Manager

- Designed and delivered complex digital products for enterprise clients.
- Led end-to-end UX processes, including requirements definition, user research and interaction design.
- Produced product flows, high-fidelity prototypes, and production-ready UI assets for development teams.

Freelance UX/UI Designer 2020 – 2023

Led UX/UI design for complex digital products, defining information architecture, user flows, and high-fidelity interfaces for B2B and B2C experiences.

- Defined the UX structure for the "Kolot" organization website, shaping the content hierarchy and navigation flow in collaboration with the site developer.
-

EDUCATION

- UX/UI Studies – Netcraft Academy, 2022
- B.Des in Interior Design – HIT, Holon Institute of Technology, 2016–2020
